Thread list for this project 2013

This is a 7" square design. A study in stitches and colors as a cat sits in a cathedral window.

You can follow along with me each month and watch the sun pour in.

Here's a glimpse of the color selections.

Welcome to the new 2013 project.

The threads are listed below, grouped by area - the order to be stitched.

I have given the Anchor floss number where possible. If none looked close to me, I gave the DMC number. If the thread has already appeared/stitched, it is colored blue.

See below for more info on the threads - those that are not the usual - your LNS can get these.
